BUILDING UPDATE

The crumbling coach house is due a makeover and work has started today! This phase has been given an amazing boost by local company Jayflex, led by Clewer resident, Brendan O'Reilly. Jayflex were responsible for fixing our stable roof just in time for the Winter Fayre and they have come to the rescue again.

The Coach House is a bigger project involving a brand new roof and an upstairs room ready to house a technology suite that will be a huge benefit to the Green Room pupils and the community at large. Downstairs will be the perfect nook for games, events, or a quiet drink, with lights & sound, safety and warmth.

Look out for a Cinderella transformation!

Just when you thought it might never happen...

Another Fairy Godmother has arrived, with the delivery of a pre-loved kitchen ready to kickstart the Kitchen Project. McFarlane Telfer Ltd, based in Maidenhead and led by Chris Craggs, are helping us to source equipment, design the layout and give ongoing maintenance. Their vast experience in this field has been hugely appreciated. This has got the cogs turning again on the kitchen and we are doing what we can afford right now to get the kitchen fire burning.

THIS TIME LAST YEAR

After the success of last week's volunteer day, it was all about getting the bar ready this week. Our amazing husband and wife team Gerry and Allan were busy cleaning and re-pointing the exposed brick work in the bar whilst the cellar was being treated for damp and prepared ready for the lines to be installed. The shiny new coffee machine and other equipment was ordered for the bar. However, the most exciting thing was a visit from [Windsor Fire Station's Red Watch](#) to help us with the essential job of taking down the old pub sign. The new logo and sign was still the best kept secret in Windsor!

Real progress in what remains a largely virtual world...

Warm regards,
