GR6 UPDATE

GRC has had a busy week. In the classroom the students have wrapped up their latest project in which they've been exploring the true cost of the products we use everyday. They've been in the gym and playing benchball, and also continuing with the renovation of the covered area, codenamed 'Project Cowshed'. On Wednesday we helped out Wild Windsor, a community conservation group, by planting young trees at Sutherland Grange in Dedworth, alongside RBWM's environment team. Our Swan Elder this week was Joe Donnelly, bass player from The Silencers, now Caezar. Joe talked about his illustrious career in music, and his life growing up in Glasgow with music as the thread that kept him on track.

On Thursday we held our annual Careers Coffee Morning at The Swan, as part of National Careers Week. We invited around 20 professionals from a broad cross-section of careers to sit down and talk to our students. Across the morning our students had hundreds of meaningful conversations and encounters, learning so much about what it's like to work in areas as diverse as policing, architecture, landscaping, fitness, TV & Film, and so much more. Thank you to all who came down to lend their time and experience. On top of all that, our Epic Thursday customers were treated to another excellent brunch service!

So much to look forward to, you have to join us and see for yourself.

Warm regards,

The Friends of The Swan
